

**CHECKLIST OF AMERICAN ULOBORIDAE (ARACHNIDA: ARANEAE)**Brent D. Opell<sup>1</sup>**ABSTRACT**

Names, synonyms, and distributions of uloborid spiders known from North, Central, and South America are provided.

The first comprehensive revision of American Uloboridae was Muma and Gertsch's (1964) treatment of the family's United States and Canadian members. This was followed by Lehtinen's (1967) reevaluation of the family's generic division, Chickering's (1968) study of Panamanian and West Indian *Miagrammopes* and Opell's (1979) revision of all Mexican and Central and South American Uloboridae except members of the genus *Miagrammopes*. Studies by Lubin et al. (1982) and Opell (1981, 1982) brought the number of known American uloborid genera to 14 and the number of recognized species to 71.

The purpose of this list is to provide ready access to the names, synonyms, nomenclatural changes, and general distribution of the American Uloboridae. As a revision of *Miagrammopes sensu lato* (*Huanacauria*, *Miagrammopes*, *Mumaia*, *Miagramropsidis*, and *Ranguma*, the latter two not represented in the New World) nearing completion will render obsolete any listing of these species, they are only summarized. Included are all other known taxa except the following which, largely due to the unavailability of type material, are of uncertain status: *Uloborus minutus* Mello-Leitão, *U. tetramaculatus* Mello-Leitão, *U. formosus* Marx (in Banks), *U. ater* Mello-Leitão, *Petrunkewitchia venusta* Mello-Leitão, and *P. pusilla* Mello-Leitão. Genera are arranged according to Opell's (1979) phylogenetic hypothesis. Within each genus, species are arranged alphabetically, the only exception being in *Philoponella* where species are listed under three groups. The type species of each genus, if not included in a generic synonym or listed below the genus name, is marked by an asterisk. A colon following a name denotes the first transfer of the species to the cited genus.

Five genera (*Uloborus*, *Zosis*, and *Philoponella*, *Miagrammopes* and the closely related *Mumaia*) and four species (*U. campestratus*, *U. segregatus*, *Z. geniculatus* and *P. semiplumosa*) are found in North, Central, and South America. *Uloborus trilineatus*, *P. republicana* and *P. tingena* are found in both Central and South America and *Mumaia mexicana* in both North and Central America. As Figure 1 shows, the greatest number and percent of endemic genera and species are found in South America and the least in North America. Because this evaluation may be biased by the number of named *Miagrammopes* species, totals exclusive of these species are also provided.

**ACKNOWLEDGMENTS**

Collections made by William G. Eberhard in Colombia and Costa Rica extended the known ranges of several Central and South American species. Preparation of this list was supported in part by National Science Foundation grant DEB-8011713.

#### **ARISTON** O. Pickard-Cambridge 1896. 3 species.

\**A. albicans* O. Pickard-Cambridge 1896. SE Mexico and Honduras.

*A. aristus* Opell 1979. Panama.

*A. mazolus* Opell 1979. SW Mexico.

#### **HYPTIOTES** Walckenaer 1837. 4 species.

*Mithras* (preoccupied) C. L. Koch 1834. Type—*M. paradoxus* C. Koch 1834.

*Uptiotes* Walckenaer 1837. Type—*U. anceps* Walckenaer 1837.

*Hyptiotes*: Erickson 1845, emendation.

*Cyllopodia* Hentz 1847. Type—*C. cavatus* Hentz 1847.

*H. cavatus* (Hentz) 1847. E half of U.S. and Canada.

*H. gertschi* Chamberlin & Ivie 1935. W U.S. and Canada.

*H. puebla* Muma & Gertsch 1964. SW U.S.

*H. tehamensis* Muma & Gertsch 1964. Central W U.S.

#### **SIRATOBA** Opell 1979. 2 species.

*Ariston* (in part) O. Pickard-Cambridge 1896.

\**S. referens* (Muma & Gertsch) 1964. SW U.S. and N Mexico.

*S. sira* Opell 1979. Central Mexico.

#### **HUANACURIA** Lehtinen 1967.

Type—*Miagrammopes bambusicola* Simon 1892.

*Miagrammopes* (in part) O. Pickard-Cambridge 1869.

3 species. Brazil (2), Venezuela (1).

**MIAGRAMMOPES** O. Pickard-Cambridge 1869.  
Type—*M. thwaitesii* O. Pickard-Cambridge 1869.

22 species. Antilles (1), Brazil (6), Cuba (2), Guiana (1), Jamaica (3), Panama (7), Puerto Rico (1), Venezuela (1), Virgin Islands (1).

**MUMAIA** Lehtinen 1967.  
Type—*Miagrammopes corticeus* Simon 1892.

*Miagrammopes* (in part) O. Pickard-Cambridge, 1869.

6 species. Antilles (1), Argentina (1), Mexico (1), Panama (1), Puerto Rico (2), St. Vincent (1), U.S. (1), Venezuela (1), Virgin Islands (1).

**SYBOTA** Simon 1892. 3 species.

*Sylvia* (preoccupied) Nicolet 1849.

*Sybota* Simon 1892, replacement name for *Sylvia*.

*S. abdominalis* (Nicolet) 1849. Chile.

\**Sylvia abdominalis* Nicolet 1849.

*Sylvia ater* Nicolet 1849.

*Sylvia similis* Nicolet 1849.

*Sylvia rubiginosa* Nicolet 1849.

*Sylvia vittata* Nicolet 1849.

*Uloborus abdominalis*: Simon 1887.

*Sybota abdominalis*: Simon 1892.

*S. mendozae* Opell 1979. Argentina.

*S. osornis* Opell 1979. Chile.

**ORINOMANA** Strand 1934. 2 species.

*Orinomus* (preoccupied) Chamberlin 1916.

*Orinomana* Strand 1934, replacement name for *Orinomus*.

*O. bituberculata* (Keyserling) 1882. Peru.

*Uloborus bituberculatus* Keyserling 1882.

\**Orinomus lamprus* Chamberlin 1916.

*Orinomana lampra*: Strand 1934.

*O. mana* Opell 1979. Chile.

**ULOBORUS** Latreille 1806. 8 species.

*Uloborus* Latreille 1806. Type—*Uloborus walckenaerius* Latreille 1806.

*Phillyra* Hentz 1850. Type—*Phillyra mammeata* Hentz 1850.

*Veleda* Blackwall 1859. Type—*Veleda lineata* Blackwall 1859.

*Philoponus* Thorell 1887. Type—*Philoponus pteropus* Thorell 1887.

*U. campestratus* Simon 1893. SE U.S. through N South America.

*U. cinereus* O. Pickard-Cambridge 1898.

*U. spernax* O. Pickard-Cambridge 1898.

*U. diversus* Marx, in Banks 1898. W U.S. and NW Mexico.

*U. albineus* Marx, in Banks 1898.

*U. californicus* Banks 1904.

*U. utahensis* Chamberlin 1919.

*U. saphes* Chamberlin 1924.

*U. crepedinis* Chamberlin 1924.

- U. eberhardi* Opell 1981. Costa Rica.  
*U. elongatus* Opell 1982. Argentina.  
*U. glomosus* (Walckenaer) 1847 (1842). E half of U.S. & Canada, N. Mexico.  
*Epeire glomosa* Walckenaer 1837 (1842).  
*Phillyra mammeata* Hentz 1850.  
*Phillyra riparia* Hentz 1850.  
*Uloborus plumipes*: Emerton 1888.  
*Uloborus americanus*: Comstock 1912 (1913).  
*Uloborus glomosus*: Chamberlin & Ivie 1944.  
*U. metae* Opell 1981. E central Colombia.  
*U. segregatus* Gertsch 1936. Texas through N South America.  
*U. trilineatus* Keyserling 1882. S. Mexico through South America.  
*U. penicillatus* Simon 1891.  
*U. aegrotus* Simon 1893.  
*U. maniculatus* Simon 1893.  
*U. bucki* Mello-Leitão 1943  
*U. plumipes* Mello-Leitão 1947.  
*U. plumipedatus* Roewer, 1951 replacement name for  
*U. plumipes* Mello-Leitão, preoccupied by *U. plumipes* Lucas 1846.

**ZOSIS** Walckenaer 1837. 2 species.

- Uloborus* (in part) Latreille 1806.  
*Zosis* Walckenaer 1837. Type—*Zosis caraibe* Walckenaer 1837.  
*Orithyia* Blackwall 1858. Type—*Orithyia williamsii* Blackwall 1858.

- Z. geniculatus* (Olivier) 1789. pantropical.  
*Aranea geniculata* Olivier 1789.  
*Zosis caraibe* Walckenaer 1837.  
*Uloborus zosis* Walckenaer 1841.  
*Uloborus latreillei* Thorell 1858.  
*Orithyia williamsii* Blackwall 1858.  
*Uloborus domesticus* Doleshall 1859.  
*Orithyia luteola* Blackwell, 1865.  
*Uloborus williamsii*: O. Pickard-Cambridge 1871.  
*Uloborus geniculatus*: Thorell 1890.  
*Uloborus luteolus*: Roewer, 1954.  
*Zosis geniculatus*: Lehtinen 1967.  
*Z. peruvianus* (Keyserling) 1882. E central Colombia to N central Brazil to N central Argentina.  
*Uloborus peruvianus* Keyserling 1882.  
*Uloborus peruvianus*: Bonnet 1959, emendation.  
*Zosis peruvianus*: Opell 1981.

**OCTONOBA** Opell 1979. 1 species.

- Uloborus* (in part) Latreille 1806.

- \**O. octonaria* (Muma) 1945. Central and SE U.S.  
*Uloborus octonarius* Muma 1945.  
*Octonoba octonaria*: Opell 1979.

**CONIFABER** Opell, in Lubin et al. 1982. 1 species.

- \**Conifaber parvus* Opell, in Lubin et al. 1982. E central Colombia.

**PONELLA** Opell 1979. 1 species.

*Uloborus* (in part) Latreille 1806.

\**P. lactescena* (Mello-Leitão). 1947. Paraguay and S. Brazil.

*Uloborus lactescens* Mello-Leitão 1947.

*Ponella lactescena*: Opell 1979.

**PHILOPONELLA** Mello-Leitão 1917. 15 species.

*Uloborus* (in part) Latreille 1806.

*Philoponella* Mello-Leitão 1917.

*Philoponella republicana* species group Opell 1979.

*P. divisa* Opell 1979. N South America.

\**P. republicana* (Simon) 1891. Panama & South America.

*Uloborus republicana* Simon, 1891.

*Uloborus cuminamensis* Mello-Leitão 1930.

*Uloborus mundior* Chamberlin & Ivie 1936.

*Zosis mundior*: Lehtinen 1967.

*Philopenella republicana*: Opell 1979.

*P. signatella* (Roewer) 1951. SE Mexico through Honduras.

*Uloborus signatus* O. Pickard-Cambridge 1898.

*Uloborus signatellus* Roewer 1951, replacement name for preoccupied  
*U. signatus* O. Pickard-Cambridge 1898.

*Philoponella signatella*: Opell 1979.

*P. tingena* (Chamberlin & Ivie) 1936. Costa Rica through Colombia.

*Uloborus tingnes* Chamberlin & Ivie 1936.

*Philoponella tingena*: Opell 1979.

*P. vicina* (O. Pickard-Cambridge) 1898. S Mexico through Central America.

*Uloborus vicinus* O. Pickard-Cambridge 1898.

*Philoponella vicina*: Opell 1979.

*Philoponella semiplumosa* species group Opell 1979.

*P. arizonica* (Gertsch) 1936. Arizona.

*Uloborus arizonicus* Gertsch 1936.

*Philoponella arizonica*: Opell 1979.

*P. oweni* (Chamberlin) 1924. SW U.S.

*Uloborus oweni* Chamberlin 1924.

*Philoponella oweni*: Opell 1979.

*P. semiplumosa* (Simon) 1893. Texas through N South America.

*Uloborus semiplumosus* Simon 1893.

*Uloborus variegatus* O. Pickard-Cambridge 1898.

*Uloborus abstrusus* Gertsch & Davis 1942.

*Philoponella semiplumosa*: Opell 1979.

*P. subvittata* Opell 1981. Guyana.

*P. vittata* (Keyserling) 1882. South America.

*Uloborus vittatus* Keyserling 1882.
